

Earthian – WIPRO's Sustainability Education Program for Schools

Wipro 'earthian' came into being in 2011, out of the strong conviction that building awareness is the first step towards sustainability. The vision of Wipro earthian is rooted in the challenging task that humanity faces - of finding solutions to several sustainability issues like climate change, water scarcity and loss of biodiversity amongst several others. The project aims at building skills, attitudes and values to shape a sustainable future. Our vision is to create an informed society by nurturing sustainability ideas within young minds in schools and colleges. Over the years, Wipro earthian has evolved and became more focused. The mandate is clearly to reach out and engage a generation that will inherit the earth from us.

The Core objectives of Wipro earthian are:

- Integrating Sustainability education into school and college curriculums, to critically engage students with sustainability issues through multiple perspectives.
- Driving sustainability thinking and action through the learning process and Empowering teachers and learners to drive change in their own contexts and environments.

We have reached out to over 7000 schools and 5500 colleges over the past 6 years. The major achievements of Wipro earthian over the course of these 6 years are breaking linguistic, economic and geographical barriers to reach schools and colleges throughout India and beyond. The program is evolving year on year to reach out to larger audiences, to engage teachers and students in a long term partnership, with sustainability as the main focus.

The proposal given below is keeping in context our collaboration in the year 2016 to take the earthian awards to schools in your state. Parts of the proposal (financial & otherwise) need to be filled in by your office. Once the filled up proposal reaches our office an authorised signatory will sign and send it back to your office for your final approval.

Proposal for Earthian programme 2017

Earthian awards programme anchored by Eco-eye WIPRO's sustainability initiative (hereinafter referred to as we/us/our) proposes to partner with the HP State Council for Science Technology and Environment (hereinafter referred to as your office) to introduce 'earthian awards programme 2017' to select schools in Himachal Pradesh.
