

PIC has LexisNexis Total Patent database for conducting patent search reports and patent landscape

LexisNexis is a unique database developed by LexisNexis (a division of ELX Group).It has the world's best database coverage (authorities and publication date) covering 100 countries (Bibliographic and Abstract) and full text for 32 countries.

TotalPatent gives you the comprehensive patent data you need to help address challenges such as:

- Protecting your patent portfolio
- Researching licensing opportunities
- Checking assignee and patent status
- Tracking competitor developments
- Watching innovation space
- Monitoring emerging markets
- Performing citation analysis on up to 20 documents at a time
